December 2023

Dear Parents and Carers,

I am the lead for Computing across school and I just wanted to take this opportunity to offer some advice and information with regards to online safety.

Using the internet safely and positively is a key message that we deliver to the children throughout the year but I feel it is especially important to remember leading into the school holidays.

I have attached a document that contains some very useful tips for parents/carers to help you ensure that your children are staying safe online and I have also included a list of other useful websites you may wish to browse. It is important that, as a parent, you put yourself in control of your children's devices and know exactly what they are accessing.

Please also take this opportunity to have a conversation with your children at home about their online behaviours, how long they are spending on their devices and what they should do if they see anything of concern.

Online safety is an important issue which as a school we're committed to teaching our pupils about. Thank you for working with us to ensure our children are well-equipped to thrive in a technological world.

Mrs Nikki King
Computing Lead
