

St. Joseph's

Catholic  
Primary School

February 2022

Dear Parents and Carers,

As a school we will be celebrating British Science Week between 14<sup>th</sup> and 18<sup>th</sup> March. The theme for this year is 'Growth' which will also link in well with the work we are doing towards our Eco Schools Green Flag. More information about the activities in school and how you can get involved at home will be shared closer to the time on our school website and social media pages.

As part of British Science Week we will be visited by Shooting Stars Circus Skills who will be delivering some exciting science workshops. They will be visiting school on Wednesday 16<sup>th</sup> and Thursday 17<sup>th</sup> March and will be working with children across the whole school. The workshops will take place on school premises and school staff will be present at all times.

We are very excited to be able to offer these opportunities to our children, however in order for us to be able to offer more of these in the future we are asking for a voluntary contribution of **£2 per child**. If school are in receipt of pupil premium for your child we are not asking for this donation towards the cost as this will already be covered. We would greatly appreciate if this voluntary contribution can be made via School Gateway before **Friday 11<sup>th</sup> March 2022**.

Thank you for your continued support,

Miss Whitehead  
Science Lead
